

SUNDAY 30 SEPTEMBER 2018

ROAD CLOSURES & REOPENINGS

Dear Resident/Business Owner

The Bank of Scotland Great Scottish Run will take place around Glasgow on Sunday 30th September. This event is organised by The Great Run Company in association with Glasgow Life and Glasgow City Council and with your co-operation we will make every effort to ensure the event runs smoothly with as little disruption to the local area as possible.

Super Saturday takes place on 29th September and has something for the whole family with around 3,000 kids taking part in the Toddler Dash, Family Mile and Junior Run. Saturday's events all start and finish in George Square, taking over the Merchant City and kicks off at 10:00hrs.

The 10k and half-marathon events on Sunday 30th September feature some of the world's greatest athletes and over 20,000 club, charity and fun runners. All of the action from the half-marathon will be broadcast live on BBC2 Scotland from 11:00hrs until 13:45hrs.

Entries for the 10k and Super Saturday events are still open at greatscottishrun.com

You will find details within this leaflet of the road closures and parking restrictions that will come into effect in the city for the event, and details regarding your area in particular. I would be grateful if you would take note of the information provided. Glasgow City Council's Parking Enforcement Unit will be patrolling these streets and any vehicles parked illegally, and in suspended parking bays, will be removed. Signs and no-parking cones will indicate the temporary parking restrictions.

Bus services will be diverted due to the road closures. Passengers are advised to check with service providers for route alterations. Emergency service vehicles will not be affected by any of the restrictions. Road closures and diversion routes will be sign-posted with every effort being made to keep traffic flowing as freely and smoothly as possible.

For live traffic information and diversion routes on the day of the event, you can use Waze (online at waze.com or download the Waze app) for help with navigating around the road closures.
