

SECTOR 1

Closure period 0500 – 1100

- During the closure period residents have the ability to access and egress at **all times**
- Residents should expect to see traffic management signage/cones at their junction with the A84 promoting them to turn right only if living on the south of the A84 and left only if living on the north of the A84.
- Egress from this sector is east bound only taking vehicles towards Stirling city centre (Kildean roundabout M9 interchange)
- Access to this sector is west bound only from Stirling city centre (Kildean roundabout M9 interchange)

Point A

- This is a road closure point at the A84/Craigforth roundabout. At this point there will be no access to vehicles unless accessing local properties only as far as Sommer's Lane.
- At this point exiting traffic will be directed onto the open road network heading south and east towards Stirling City Centre and the M9 where north and south routes can be accessed.

Point B

- This is a road closure point at the A84/Sommers Lane junction. At this point there will be no access to vehicles heading westbound, this is to ensure the route can be set up.
- At this point any traffic that has ignored signage on the A84 in Sector 1 will be politely asked to perform a U turn and head south and East to Point A.

Road re-openings – see Sector 1 and Sector 2 maps and detail

- Roads will be re-opened in a timely fashion, however there are a number of key checks that are required before the highways can be re-opened to traffic.
- The A84 is a key trunk road and the reopening of it will take place as follows:
- From Craigforth Roundabout (Point A Sector 1 map) through to A84/A820 (see point G on Sector 3 map).

Please note: At this time Doune Village remains inaccessible, as runners will be using the carriageway, see sector 3 for maps and detail.

Target time for Sectors 1 and 2 reopening is 1100.
